"My Art is a contemplative exploration of the unnoticed intricacies that define our daily existence, rendering visible the subtle beauty of the mundane. Through my work, I strive to evoke the transcendent connection between the human spirit and the divine, with a particular focus on the sacred environs of Banaras and Haridwar. The majestic Ganga, her waters shimmering in the ethereal rays of the sun as they cascade over timeworn temples, forms the very soul of my canvases. These revered ghats and sacred rituals serve as metaphysical symbols of the eternal flow of life, offering the viewer an invitation to immerse themselves in the divine rhythm that permeates all things."
